

# Immaculata-La Salle High School

Office of Institutional Advancement

January 2008

Dear Friend:

These past fifty years, Immaculata – La Salle High School has truly been blessed. Throughout our rich history we have provided an environment in which students could grow and excel academically, socially, athletically, artistically, and above all, spiritually. Our success can be measured by, not only the professional success of our graduates, but upon the positive impact they have had in their families, the community and the Church.

Thanks to the goodness of our parents, alumni, and community benefactors, we continue to provide a quality, Catholic education to our students. Thanks to the generosity of so many people, we were able to get the campus up and running following Hurricanes Katrina and Wilma. Thanks to the generosity of the Armando Alejandro Foundation and fundraising efforts of our parents, we have a truly state of the art science pavilion. Thanks to the generosity of alumni, parents, and community members, we have been able to keep pace with the ever growing need for financial assistance for families suffering from personal financial setbacks,

This year of Jubilee, we are initiating an annual appeal. The capital needs stemming from fifty year old buildings, the increasing number of families requesting tuition assistance, the cost of keeping our technology updated, and our needs for additional facilities, are the motivating factors behind this annual campaign. An investment in Immaculata – La Salle High School is truly an investment in the local community, an investment in the future.

We ask that you make a financial commitment to Immaculata – La Salle High School. All gifts, no matter the size, will enable us to move forward in excellence. All the gifts are tax deductible. Many companies have “Matching Gift” programs that will double your donations.

With your help we can continue being a beacon of light and hope for the lives of our young people.

With gratitude and prayer,

Sr. Patricia Roche, FMA  
Principal

Paul D. Otero  
Director of Institutional Advancement
